SALES STRATEGIES

LIFE

DON'T FORGET INCOME

Most life insurance policies only cover the immediate debts. It is equally important to insure if something happens to your client, the surviving spouse and family members will have money for bills and living expenses. We offer great product that spreads out the death benefit over 10, 20, or 30 years that is designed just for income replacement.

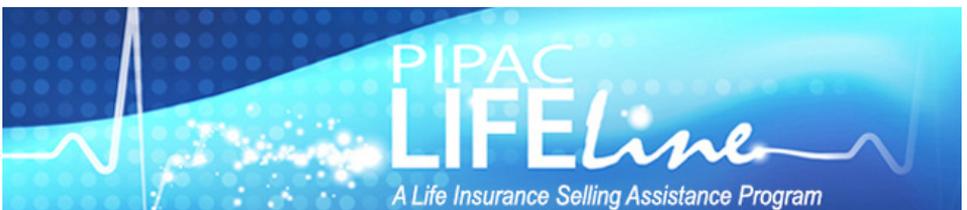

FINAL EXPENSE SALES

One of the biggest reasons seniors purchase life insurance is to pay for final expenses. The average cost of a funeral in the United States is \$10,000. We have small face amount policies that you can offer to your clients regardless of their current health conditions.

CASH VALUES STRENGTHS

Cash value life insurance can be a flexible financial tool that is customizable for each client. Cash can be borrowed from the policy to help fund education expenses, down payments, emergency costs and supplement retirement income.
